A lively Craps game is the ultimate when it comes to fun and excitement. In this fast-paced game, there are many ways to bet and just as many ways to win! It’s as simple as placing a bet on the Pass Line or Don’t Pass Line and your fun begins!

**COME OUT ROLL** The first roll of the dice at the opening of the game or the next roll of the dice after a decision with respect to Pass Bet and Don’t Pass Bet.

**COME OUT POINT** A total of 4, 5, 6, 8, 9 or 10 thrown by the shooter on the Come Out roll.

**PASS LINE** A Pass Line wager is placed immediately prior to the Come Out roll. You win on 7 and 11 and lose on 2, 3, or 12 on the Come Out roll. If any other number rolls, it’s your point. If your point rolls before 7, you win. If 7 rolls before your point, you lose and the dice move to the next shooter. Pass Line bets cannot be reduced or removed after the point is established. This bet pays even money.

**DON’T PASS LINE** A bet on this line plays the game in reverse of the Pass Line. You lose on 7 and 11 and win on 2 and 3 on the roll immediately following placement of the bet. When 12 is rolled, it is a Standoff. When 4, 5, 6, 8, 9, or 10 rolls, it is your point. When a point is established, the bet will be placed behind that number. This bet pays even money. Don’t Come Bets cannot be increased, but may be removed, or decreased after a point is established, however, they may not be replaced or increased after such removal or reduction.

**COME** You can bet on Come at any time after the Come Out roll. You can try for a new point at any time. You win on 7 and 11 and lose on 2, 3, or 12 on the bet. If any other number rolls, it’s your point and your bet will be moved to that number. If your point rolls before 7, you win. If 7 rolls before your point, you lose. A Come Bet cannot be reduced or removed after a number is established for such bet.

**DON’T COME** A bet on this plays the game in reverse of the Come Line. You lose on the 7 and 11 and win on 2 and 3 on the roll immediately following placement of the bet. When 12 is rolled, it is a Standoff. When 4, 5, 6, 8, 9, or 10 rolls, it is your point. When a point is established, the bet will be placed behind that number. This bet pays even money. Don’t Come Bets cannot be increased, but may be removed, or decreased after a point is established, however, they may not be replaced or increased after such removal or reduction.
ODDS An additional wager in support of a Pass Line/Come Bet may be made. This bet is known as an Odds bet. The Odds bet for the Pass Line/Come Bet may be placed or removed any time after the Come Out roll and the point is established. Come Bet Odds are inactive on the Come Out roll unless called “on” by the player. Odds on the Pass Line/Come Bet for the point of 4 or 10 may be a maximum of 3 times your Pass Line/Come Bet and pay 3 to 2. On the point of 6 and 8 the Odds may be a maximum of 5 times the Pass Line/Come Bet and pay 6 to 5. With a $10 minimum line bet players can take up to 10 times odds (10 times Pass Line/Come Bet).

LAYS An additional wager in support of the Don’t Pass Line/Don’t Come Bet may be made. This bet is referred to as a Lay Bet. The Lay bet for the Don’t Pass Line/Don’t Come Bet may be placed or removed at any time after the Come Out roll and the point is established. Lay bets always work. Lay bets on the 4 and 10 allow you to win a maximum of 3 times your original wager on the Don’t Pass Line/Don’t Come Bets and you have to lay 2 to win 1. Lay bets on the 5 and 9 allow the player to win a maximum of 4 times the original wager on the Don’t Pass Line/Don’t Come Bets and you have to lay 6 to win 5. With a minimum of $10 Don’t Pass Line/Don’t Come Bet a player’s lay bet may win 10 times their original wager.

FIELD You can bet on every roll of the dice. If 2, 3, 4, 9, 10, 11, or 12 rolls, you win. All numbers pay even money, with the exception of 2 pays double and 12 pays triple. If 5, 6, 7, or 8 rolls, you lose. The Field is a one-roll bet.

PLACE BETS TO WIN On a Place Bet, you can bet on 4, 5, 6, 8, 9, 10 at any time. If your number rolls before 7, you win according to the odds payout chart. If 7 rolls before your number, you lose. Place Bets are inactive on the Come Out roll unless called “on” by the player.

BUY BETS Buy Bets are exactly the same as Place Bets except by paying a 5% commission on the Buy Bet, you receive the true odds as show on the chart. Buy Bets are inactive on the Come Out roll unless called “on” by the player. A Buy button denotes this bet.

LAY BET You may Lay a bet against 4, 5, 6, 8, 9 or 10 at any time. In order to do so, you must pay a 5% commission based on what you could win. Lay Bets always work. Check the chart for the payoffs. A Lay button denotes this bet.

HOP BETS OR PROPOSITION BETS These are one-roll bets, except for Hard Ways. The Dealer will place all Proposition Bets in the center of the Craps table. The dealer will take or pay all Proposition Bets on the next roll of the dice – again except for Hard Ways. Unless you request otherwise, your winning bet remains in action.
ANY 7 You can bet Any 7 on any roll of the dice. When 7 rolls, you win and are paid 4 to 1, if any other number rolls, you lose. This is a one-roll bet.

ANY CRAPS You can bet on any roll of the dice. If 2, 3, or 12 rolls, you win and are paid 7 to 1. If any other number rolls, you lose. This is a one-roll bet.

HARD WAYS There are four Hard Ways combinations. Hard Four (two 2s), Hard Six (two 3s), Hard Eight (two 4s), and Hard Ten (two 5s).

For instance, if you wanted to play a bet on Hard Four, your bet would appear as shown. You can bet the combination you want at any time. Hard Way wagers win if the selected Hard Way is rolled before a 7 and lose if a 7 is rolled or the selected number is rolled in any other way prior to the selected Hard Way being rolled. For instance, if you bet the Hard Six (two 3s) you win when that rolls before 7 or any Easy Six (5 and 1 or 2 and 4). Hard Ways are inactive on the Come Out roll unless called “on” by the player.

HORN BET Here you bet on a combination of four numbers: 2, 3, 11, and 12 (Horn). If any of these numbers are rolled, you win, if any other number is rolled, you lose. One-fourth (1/4) of the Horn Bet is bet on each of the individual numbers (2, 3, 11 and 12). If any of these numbers roll, you win and are paid at the odds listed in the payout charts. If any other number is rolled, you lose. This is a one-roll bet.

HORN HIGH BETS There are four Horn High combinations, Horn High 2 (Aces), Horn High 3 (Ace, Deuce), Horn High 11 (5,6) and Horn High 12 (2 sixes). If 2, 3, 11 or 12 rolls, you win, if any other number is rolled, you lose. This is a one-roll bet. How this differs from a Horn Bet is that one-fifth (1/5) of the Horn High is bet on each individual Horn numbers (2, 3, 11, 12), with an additional one-fifth (1/5) of the bet on the designated Horn High number (for example, Horn High 11: two-fifths (2/5) of the bet on 11, one-fifth (1/5) on 2, one-fifth (1/5) on 3, one-fifth (1/5) on 12).

2, 3, 11, OR 12 You can bet on 2, 3, 11 or 12 individually. They are only one-roll bets. The winning payoff on 2 or 12 is 30 to 1. The winning payoff on 3 or 11 is 15 to 1. If any number other than that number rolls, you lose.
