

IN BET

The IN BETween wager of a player shall win if the dealer's upcard falls between the player's initial two cards according to the rank order (2-3-4-5-6-7-8-9-10-J-Q-K-A) and will lose if the dealer's upcard falls outside the player's initial two cards according to the rank order. However, if the dealer's upcard and the the player's initial two cards are the same rank the player wins.

Winning IN BETween wagers are paid according to the respective card spread. Examples of card spreads are as follows:

1. One card spread (dealer's upcard is a 5, player's cards are a 4 and 6)
2. Two card spread (dealer's upcard is a 5 or 6, player's cards are 4 and 7)
3. Three card spread (dealer's upcard is a 5, 6, or 7, player's cards are 4 and 8)

TRIPLE MATCH	30 to 1
